

* Remember to turn off software that supports typing like Unikey, Vietkey, ... before playing the game !

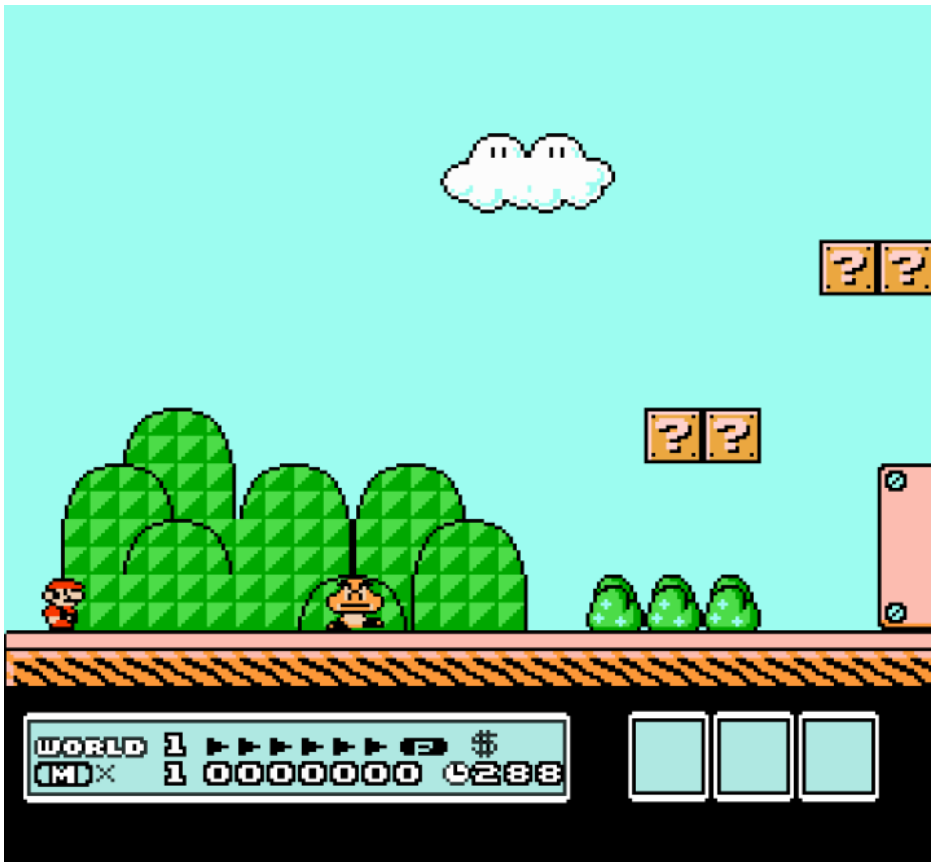

Press W to go next

Use the navigation keys (Left, Right, Up, Down) to move Mario to gate number 1.

In this program, I have written 2 levels, which can be accessed at gate number 1, and gate number 4.

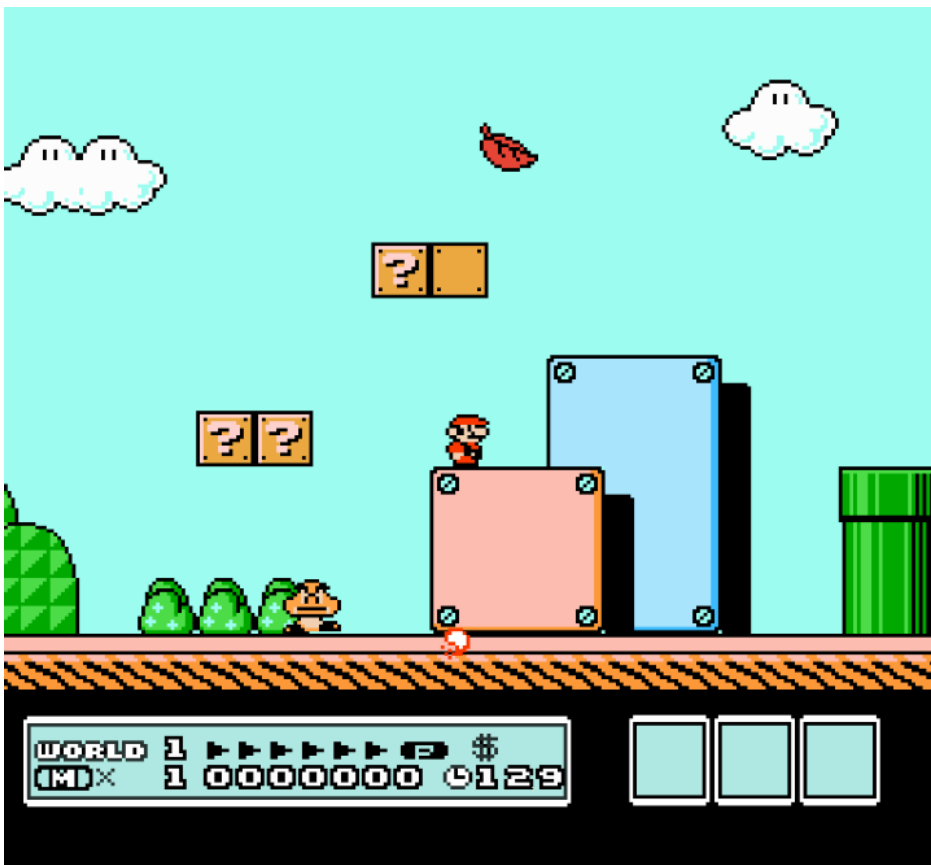

After moving Mario to the gate, press S to access into it.

This is the screen when entering gate 1.

Use the navigation keys (**Left**, **Right**, **Up**, **Down**) to move Mario.

Avoid monsters, or press **S** to **jump** up, monsters will be **destroyed** when you **jump on top of them**.

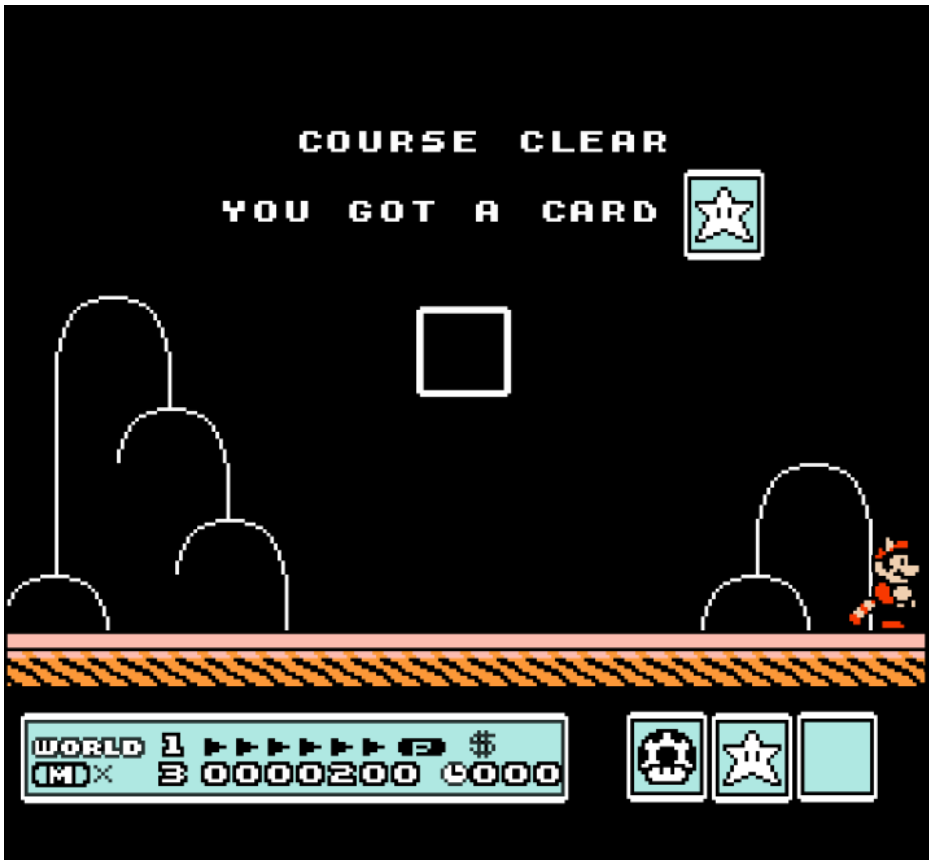

Jump up from below *question boxes* to open them, you will receive gifts like points, items,...

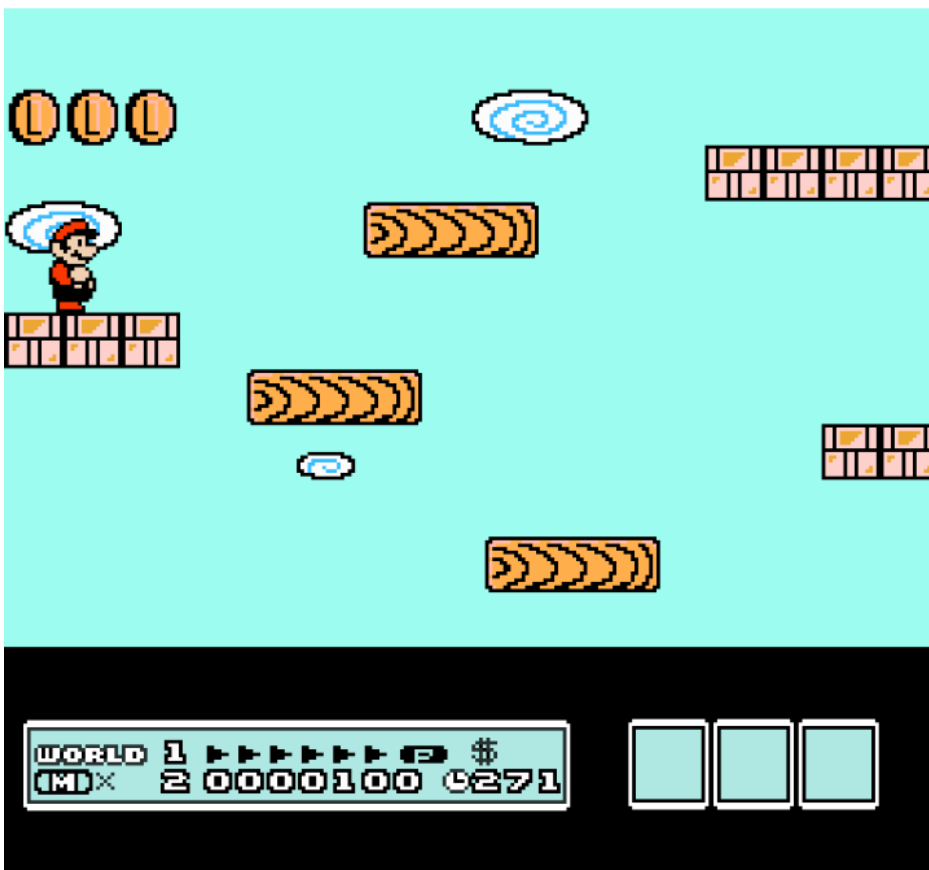

Collect that Leaf to level up Mario.

In addition, for the test purpose, you can press the **1,2,3,4** keys to change the Mario level as you like.

	Small Mario You will die immediately if you collide with monsters.
	Big Mario when colliding with monsters, you will not die, and turn into Small Mario
	Raccoon Mario can press A to attack by his tail
	Fire Mario can press A to shoot fire bullets

Collect the item in that square to finish the level !

This is the screen when entering gate 4.

Go to the end of the map, climb up the manhole, press the Down key to enter the drain.

And continue your journey ...

Enjoy it !

Thank you for watching and playing my game.
Toan Tan !
